

Tuesday, January 10, 2017,

Hello,

I look forward to meeting you all in our first ECOG314 session on **Friday, January 13, 2017**.

As you are aware, our *Exploratory Data Analysis with R* class will be held in the Federal Reserve Board office building at 1801 K Street NW, room K1-5130, on Fridays from 9:00 AM - 12:00 noon through **Friday, May 5, 2017**.

In this class, you will have the chance to gain a thorough understanding of the course material by:

1. Participating in class lectures,
2. working through lab sessions with an FRB assigned mentor,
3. individually completing assignments, and
4. completing two data intensive projects to be presented in class.

I have attached a copy of the instruction file

([Lecture1\\_part1\\_INSTALLING\\_R\\_and\\_RStudio\\_your\\_computer\\_January\\_10\\_2017.pdf](#)) to help you install R and RStudio before our first class.

If you have questions about the installation, please contact me directly.

Thank you,

William Ampeh
